

6 SIGNS YOU NEED A TOOTH FILLING

A tooth filling is a dental procedure used to treat cavities and prevent further damage to your teeth.

Here are 6 signs that you may need a tooth filling:

1

SENSITIVITY TO HOT AND COLD FOODS

If you feel a sharp pain or discomfort when eating or drinking something hot or cold, it could be a sign of tooth decay that requires a filling.

PAIN WHEN CHEWING

Pain when chewing can indicate a cavity or a cracked tooth that needs filling.

2

3

VISIBLE HOLES OR DISCOLOURATION

If you notice a black or brown spot on your tooth or a hole in your tooth, it could be a sign of decay that requires filling.

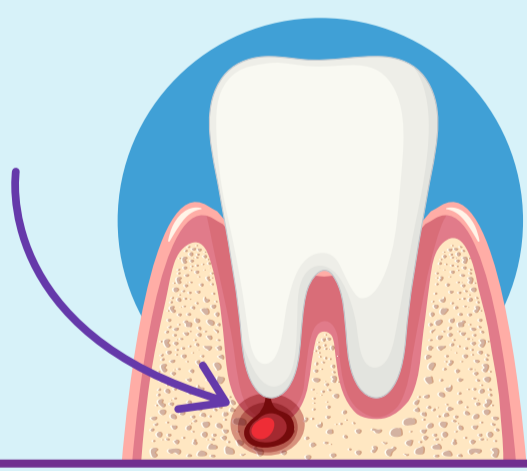

BAD BREATH

Bad breath can be a sign of an untreated cavity, which can be remedied with a tooth filling.

4

5

SWOLLEN GUMS

Swollen or inflamed gums around a tooth can indicate decay that requires a filling.

TOOTHACHE

If you experience a toothache that persists for more than a day or two, it could be a sign of a cavity or an infection that requires a filling.

6
